

After that date, BGK issued two calls for applications: in June and in December 2011. In June, interest from entrepreneurs was unexpectedly high (157 applications), while in December the popularity of the technology credit increased nearly four times (627 applications). By comparison, between June 2009 and April 2011, i.e. under the previous rules for granting support, only 213 applications were received by BGK.

So far, BGK has granted support to 192 technological projects for the total co-financing amount of PLN 467 million, of which 52 projects have already been completed, and total funding of almost PLN 85 million has been disbursed.

Bank Gospodarstwa Krajowego is the only state-owned bank in Poland. Its mission is to support the central government's social and economic programmes as well as regional development programmes designed at regional government level and run with the use of public funds, including those provided by the European Union. BGK is actively involved in the consolidation of public finance, financing of regional and local authorities, municipal companies and healthcare establishments. It also supports Polish exports and the investment projects e.g. through the organisation of financing for such projects and promotion of public-private partnership.
